Emission Inventory - Public Review

In this site is presented the 2014 INEMAR emission inventory (public review) of Region Lombardy made up by ARPA Lombardia.

It is possible to access to the INEMAR database and [download](#) the following information:

- municipal data emission of Region Lombardy, group by SNAP activity and [fuel](#)
- [regional](#) and [provincial](#) emission level

Short information are available on:

- atmospheric emission
- emission inventories
- pollutants and their effects on both health and environment
- useful thematic links
- the INEMAR database structure

The available download data are referred to emission due to municipal activity.

"Shadow emission" are not estimated by INEMAR. "Shadow emission" are related to final energy consumption, available at [SIRENA](#) website.

To quote data: INEMAR - Arpa Lombardia (2017), INEMAR, Emission Inventory: 2014 emission in Region Lombardy - public review. ARPA Lombardia Settore Aria.
